BUSINESS PROFESSIONALS

SHAPE THE BUSINESS

When it comes to determining the future strategy of a business, it can be a difficult task, particularly when there are multiple variables and scenarios to consider. Questions such as how to allocate available funds, where to relocate production facilities, and which market to enter can arise. Our financial models provide a systematic approach to these intricate issues, enabling a flexible evaluation and prioritization of all available alternatives.

RUN THE BUSINESS

Whether you are managing your business as usual or through a crisis, the achievement of targeted objectives is dependent on setting realistic forecasts, managing capital spending and ensuring cash and regulatory compliance. The supporting financial models should reflect the current business operations, have the ability to measure the impact of current or future changes in key drivers and must include monitoring capabilities.

EXPAND OR DIVEST THE BUSINESS

When developing your business to implement future strategies and achieve objectives, you may consider amalgamating suitable capabilities, assets, and expertise through transactional activities. We can provide aid in assessing the effects of synergy benefits or separation/carve-outs, as well as changes in capital structures in a typical deal. The financial models used for this must be strong and equipped with the capability to rapidly test numerous scenarios and their corresponding impacts.

EXAMPLES

SHAPE THE BUSINESS

- Strategic options
- Scenario analysis
- Product/service development
- Product/service cost & profitability
- Pricing analysis
- Cost analysis
- Dashboards & scorecards
- Monte Carlo simulation

- Sensitivity analysis
- Model reviews
- Cash flow modelling & valuation
- Carve-out planning
- Carve-out tracking
- Accounting Separation
- Synergy planning
- Synergy tracking
- Integration modelling

RUN THE BUSINESS

- Capital spending
- Forecasting & reporting
- Regulatory reporting compliance
- Covenant modelling

EXPAND OR DIVEST THE BUSINESS

- Acquisitions/disposals
- Mergers
- Debt restructuring

FREQUENTLY ASKED QUESTIONS

Q1 Have already done /doing certain levels of FRM/CFA/MBA/CA. Should I enroll for this program?

ANS Programs such as FRM, CFA, MBA, or CA do not offer practical training or live projects on M&A Valuation, LBOs Modeling, Pitch Deck, Capital Structuring, financial modeling, equity research, valuations, forecasting of financial statements, research report writing, and interpretation of global companies. Additionally, these programs do not provide any live applications on various reports that are widely used and required in real time job.

Q2 All these content are available online. Why should I enroll for the program?

ANS In today's data age, all data is freely available online. It is not the problem of lack of access to information, but a problem of information overload that we deal with. This is just too much to grasp, and what is important gets lost in this flood of data available. We have carefully curated the content for your understanding, and created this program to help you focus on what is necessary for your preparation for these roles.

Q3 This seems to be a high intensity program. Will I be able to cope up with it while having other engagements?

ANS It is indeed a high intensity program. However, the self-paced nature allows us to customize the modules for your convenience. If you have specific engagements in college/your work, the program speed can be altered for those periods. However, this is still a rigorous program, meant for focused participants who intend to build a career in Investment Banking, Equity Research, Financial Modeling, Financial Analyst, Valuations & Corporate Finance. These are competitive areas, and unless we are rigorous, the learning is not possible. So we do expect that participants will be able to put in the requisite effort and hard work. Helping you manage this time well is our concern, so rest assured, you can leave that to us.

Q4 What if I miss sessions?

ANS You will never miss a lecture at FINXL! You can choose either of the two options:

- View the recorded session of the class available in your LMS
- You can attend the missed session, in any other live batch

Q5 What if I have queries after completing this course?

ANS You get lifetime access to our Support Team who will help resolve your queries during and after the course

Q6 How soon after signing up will I get access to the course content?

ANS After enrollment, you will get instant lifetime access to the LMS. You will be able to access the complete set of previous class recordings, presentations, PDFs, assignments, etc. Moreover, you will immediately get access to our support team so that you can start learning right away.

Q7 Is the course material accessible to the students even after the course training is over?

ANS Yes! All learners get lifetime access to all course material once you have enrolled.

Q8 What is the list of FINXL certificates?

ANS

- Financial modeling & Equity Research
- Financial Planning & Analysis (FP&A)
- Investment Banking (IB)
- Financial Analyst
- Startup Valuation
- Excel Expert
- Power Point Presentation
- Microsoft Power BI

Q9 Is FINXL Certification worth it?

ANS The FINXL certification holds great value in today's job market. Having this in your resume can help open up lots of job opportunities for you. Financial Planning & Analysis certified professionals draw the best packages in the finance domain which is certainly a worthy investment for your career.

Q10 How do i register for a course?

ANS You need to go to **www.finxl.in** website and Click on "**LOGIN**" and then Click on "**REGISTER**" Then select your course after your login and then click on "**Enroll Now**"

Q11 What are the payment options?

ANS You can pay by credit card, debit card, Google Pay, PhonePe, Paytm or net banking from all the leading banks.

Q12 Do you provide placement assistance?

ANS You will get assistance from our expert on resume preparation and job portal updation. You just need to raise request in lms and our expert will connect with you within 24hrs.

FINXL does provide placement assistance. It depends on prevailing market conditions & candidate profile. We regularly send and arrange interviews for our candidates in different companies.

NOTE:

FINXL does not guarantee placements. Placements are at the discretion of management and candidates should not enroll with a sole view to seek employment opportunities through us
